Noah Whittenbarger

nwhittenbarger@outlook.com
(513) 227-3057

Current Address:
2395 Wolfangel Rd.
Cincinnati, OH 45244

Education and Training

Meharry Medical College, School of Applied Computational Sciences, Nashville, TN — Aug. 2025 - Present
Doctor of Philosophy — GPA: 4.00/4.00
Biomedical Data Science

Meharry Medical College, School of Applied Computational Sciences, Nashville, TN — Dec. 2025
Master of Science — GPA: 4.00/4.00
Biomedical Data Science

NIH R25 Scholars Program, Nashville, TN — May 2023 - Aug. 2023
Meharry Medical College
Mentor: Aize Cao, Ph.D.

University of Cincinnati, McMicken College of Arts and Sciences, Cincinnati, OH — Apr. 2017
Bachelor of Science — GPA: 3.52/4.00
Major: Biology - Biological Sciences
Minor: Chemistry

Experience

Meharry Medical College, Nashville, TN — Mar. 2024 - Present
Graduate Research Assistant – Dr. Saha Resonance Laboratory
- Investigate the relationship between body mass index and human upper airway area using MRI based imaging.
- Use acoustic features and machine learning methods to predict human upper airway area.

Vanderbilt University Medical Center, Nashville, TN — Sep. 2020 – Jan. 2024
Clinical Translational Research Coordinator II
- Create 3D models of electrode array position using artificial intelligence for patients with cochlear implants.
- Conduct informed consent process, creation/completion of source documents and case report forms, administration of study drug, AE/SAE follow up, lab specimen processing and shipment, and communication with IRB, CRO, and study Sponsor.

Vanderbilt University, Nashville, TN — Jun. 2021 – May 2023
Research Intern - Dr. Jamey Young Laboratory
- Investigate metabolic processes that inhibit and promote fibrosis in mice with nonalcoholic fatty liver disease.
- Perform PCRs, western blots, and DNA and RNA extractions to accomplish tasks required by study design.

Consultants for Clinical Research, Cincinnati, OH — Jan. 2020 - Sep. 2020
Clinical Research Coordinator
- Independently manage six non-alcoholic steatohepatitis (NASH) studies and one primary biliary cholangitis (PBC) study.
- Conduct screening visits, informed consent process, creation/completion of source documents and case report forms, administration of study drug, AE/SAE follow up, lab specimen processing and shipment, and communication with IRB, CRO, and study Sponsor.

Consultants for Clinical Research, Cincinnati, OH — Aug. 2019 - Dec. 2019
Recruitment Specialist
- Screen patients for study eligibility based on study inclusion and exclusion list.
- Create and manage potential patient database.

ScribeAmerica, Cincinnati, OH — Sept. 2017 – Jun. 2018
Medical Scribe - Ocular Oncology

- Identify relevant information pertaining to physician's evaluations and document in medical note.
- Compile data from physical examinations and appropriately bill patients.

University of Cincinnati, Cincinnati, OH Oct. 2017 - Apr. 2018
Supplemental Instruction Leader - General Physics I
- Instruct sessions that reaffirm what students have learned in lecture.
- Hold weekly office hours to assist students in understanding concepts.

The Christ Hospital, Cincinnati, OH Jul. 2017 - Nov. 2017
Patient Care Technician - Emergency Department
- Undertook technical assignments such as drawing blood, conducting EKGs, and laboratory analysis.
- Assisted patients in activities of daily life and finding information.

Good Samaritan Hospital, Cincinnati, OH Mar. 2016 - Mar. 2017
Patient Care Assistant - Geriatric/Psychiatric Unit
- Executed various tasks including bladder scans, taking blood sugar, and measuring vital signs.
- Aided psychiatric patients with Activities of Daily Living (ADL) and perineal care.

University of Cincinnati, Cincinnati, OH Jun. 2015 - Jan. 2016
Undergraduate Research Assistant
- Genotyped putative transgenic lines using *X.laevis* models. Performed fluorescent microscopy, polymerase chain reactions, and polyacrylamide gel electrophoresis.
- Maintained *X. laevis* colonies, ordered supplies, and performed other lab maintenance as needed.

Conference Abstracts

1. **Whittenbarger N**, Pinky L. Predicting Pharyngitis Etiology from Clinical Symptoms. Meharry Research Day; Nashville, TN; March 4-5, 2026.
2. Saha S, **Whittenbarger N**, Cao A. Effect of Obesity on Upper Airway Area During Vowel Articulation: An Mri-based Study. American Thoracic Society Conference; San Francisco, CA; May 16-21, 2025.
3. **Whittenbarger N**, White K, Kotun H, Saha S. Predicting MRI-Measured Upper Airway Area from Acoustic Features of Vowel Articulation. Bridge2AI Conference; Tampa, Florida; April 22-24, 2025.
4. **Whittenbarger N**, White K, Kotun H, Saha S. Predicting MRI-Measured Upper Airway Area from Acoustic Features of Vowel Articulation. Research Centers in Minority Institutions Conference; Bethesda, Maryland; March 16-19, 2025.
5. **Whittenbarger N**, White K, Kotun H, Saha S. Effect of Obesity on Upper Airway Area During Vowel Articulation. Meharry Research Day; Nashville, TN; March 5-6, 2025.

Peer-Reviewed Publications

1. Smetak MR, Riojas KE, **Whittenbarger N,** Noble JH, Labadie RF. Dynamic Behavior and Insertional Forces of a Pre-curved Electrode Using the Pull-Back Technique in a Fresh Micro-Dissected Cochlea. (Accepted by Otology & Neurotology)

Oral Presentations

1. **Whittenbarger N**, Cao A. Association of Maternal Health Outcomes with Cardiovascular Disease Using Survey Data. Oral presentation by Whittenbarger N at Fisk-Meharry-Vanderbilt NIH R25 Program Presentations; August 1-4, 2023; Nashville, TN.

Podium Presentations

1. Smetak MR, Riojas KE, Noble JH, Labadie RF. Dynamic Behavior and Insertional Forces of a Pre-curved Electrode Using the Pull-Back Technique in a Fresh Micro-Dissected Cochlea. Podium presentation by Smetak MR at CI2022 American Cochlear Implant Alliance Meeting; May 18-21, 2022; Washington, DC.

2. Smetak MR, Riojas KE, Noble JH, Labadie RF. Dynamic Behavior and Insertional Forces of a Pre-curved Electrode Using the Pull-Back Technique in a Fresh Micro-Dissected Cochlea. Podium presentation by Smetak MR at 2022 AOS/COSM Spring Meeting Scientific Sessions; April 29-May 1, 2022; Dallas, TX.

Technical Skills

Laboratory Techniques: Fluorescence microscopy, Polyacrylamide gel electrophoresis
Programming: Python, C/C++, R, SAS
Databases: SQL, Tableau
Operating Systems: Linux, Mac, Microsoft Windows

Extracurricular Activities

MAPS: Minority Association of Pre-Medical Students, University of Cincinnati Aug. 2015 – Aug. 2016
Community Service Chair
- Organized community service events.
- Orchestrated over 150 hours of community service by members in the 2015-2016 school year.

Delta Tau Delta Fraternity, University of Cincinnati Aug. 2015 – Aug. 2016
Community Service Chair
- Revised and coordinated community service events.
- Orchestrated over 500 hours of community service by members in the 2015-2016 school year.

Caducea Pre-Medical Society, University of Cincinnati Aug. 2014 – Apr. 2017
Active Member
- Aims to expand importance of pre-medical education and scholarship.
- Promotes cooperation between students and faculty in different medical fields.
